

## Bio

### **Maximillian**

In February 2017, 17-year-old Danish Maximillian put out a live video of his song 'Feelings' on Facebook. Within a days, the performance had been watched more than 90,000 times - it seemed that the world had immediately connected to Maximillian's spellbinding, youthful yet timeless vocal.

Finding his inspiration from artists like James Blake, Frank Ocean and London Grammar, Maximillian has created an urgent, electronic and soulful sound of his own.

International blogs such as Hilly Dilly, Popdust and Variance Magazine quickly picked up on the young singer, who writes and produces his music out of a small Copenhagen-based studio.

*"He's sure to make a global impression soon"* ([HillyDilly.com](http://HillyDilly.com))

*"The way he's captured youth so masterfully in a modern pop song is extraordinary for his young age"* ([Popdust.com](http://Popdust.com))

'Feelings' will be officially released June 16<sup>th</sup> through Copenhagen Records and Platoon.

### Quote

*'Feelings' is a simple song about friendship, about leaving and being left. It's about the state of mind I was in right after my best friend sort of dumped me.*

*"Times change, new days, friends fade, a new fate".*

*This is my way of stating the obvious, that times change and so do people. But I'll also manage and move on.*
